Bar Inventory Count Sheet

Free template from Tabski. One sheet per section. Walk in shelf order. Sealed units whole, open bottles in tenths (0.0 to 0.9).

Section: _____ Counted by: _____ Date: _____ Time: _____ Page ___ of ___

Shelf #	Item (name + format + size)	Count unit	Pack size	Full cases / kegs	Loose units	Open bottle (tenths)	Total (count units)	Par	Below par?

Total = full cases x pack size + loose units + open bottle. Enter totals into the matching section tab of the spreadsheet, then compare usage with POS units sold on the Usage vs Sales tab.

Notes (breakage, transfers, anything unusual): _____
